

# The Graze Craze

## Graze Restaurant at the Willow Tree Inn

If you're travelling on the North Western route today, the Willow Tree Inn comes highly recommended with its famous Graze Restaurant sure to put a smile on any gastronome's face.

Located half way between Scone and Tamworth – just a 45 minute drive from both – Graze has become a culinary landmark because of its professional, friendly service, and most of all, great food.

All the beef used at Graze is pasture fed and grain finished Black Angus, which comes directly from Colly Creek Pastoral Company at Willow Tree. It's approximately 2kms from the restaurant, and is processed and MSA graded locally.

Colly Creek produces all the beef for Graze restaurant and The Grain Store bistro and function room – that's all beef dishes such as steaks, pies, sausages, lasagne and burgers.

The venue has an in-house dry aging room

which is incorporated into the restaurant with a viewing window meaning you can see the specialised process for yourself.

Additionally, the kitchen is open plan on two sides meaning you can view your meal being prepared and cooked on the unique charbroiler – something that is sure to get your mouth watering.

If all that feasting has you a little weary,

the Willow Tree Inn has you covered with four double accommodation cabins, with ensuites. There are also two separate double rooms with ensuites, as part of the original Willow Tree Inn building. Each cabin also has its own verandah – the perfect place to relax with a glass of wine.
